- ⑦ Uncle shares a pack of 20 candies among 6 children. How many candies can each child get? How many candies left?

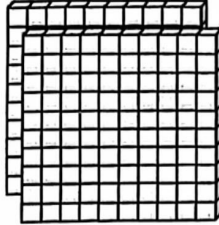

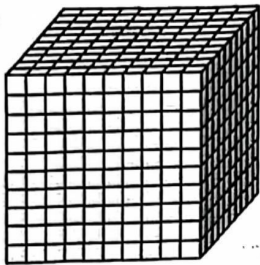

Name: _____ ()

Class: P.2A

Mission 3: Practice on 4-digit numbers

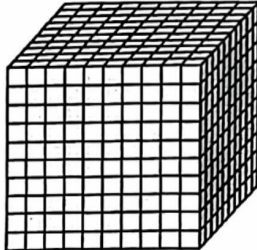

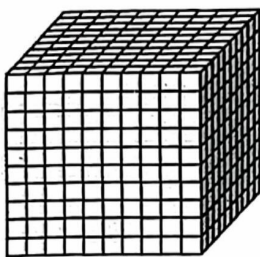

Look at the cubes. Write the numbers on the _____.

①

Total number of cubes: _____

②

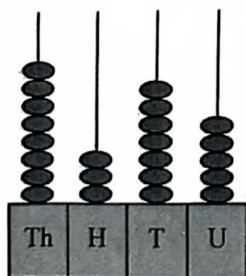

Total number of cubes: _____

Write the numbers on the _____.

Hints:	thousands	hundreds	tens	units
--------	-----------	----------	------	-------

③

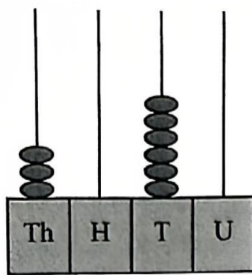

(a) The abacus shows the number _____.

The number is read as _____.

(b) In this number,

_____ is in the hundreds place. It stands for _____.

④

(a) The abacus shows the number _____.

The number is read as _____.

(b) In this number, 3 is in the _____ place.

It stands for _____.

⑤ In the number 2490,

(a) The _____ digit is '2'.

The hundreds digit is _____.

(b) The **sum** of the tens digit and the hundreds digit is _____.

Digit:
0 to 9

⑥ Follow the instructions below. Write a 4-digit number on the _____.

The units digit is '5'.
The thousands digit is '3'.
The hundreds digit stands for 100.
The tens digit stands for 40.

Answer: _____

⑦

Use the number cards above to form three different 4-digit even numbers.
Arrange the numbers from the largest to the smallest.

Answer: _____, _____, _____
(Largest) (Smallest)

Name: _____

Mission 3: Practice on 4-digit numbers

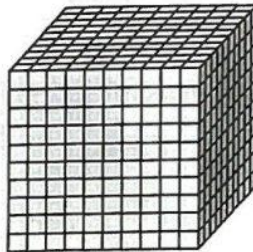

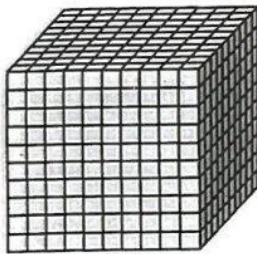

Look at the cubes. Write the numbers on the _____.

①

Total number of cubes: 1213

②

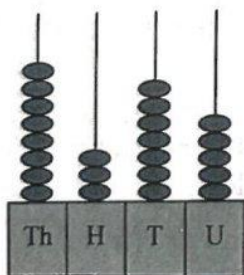

Total number of cubes: 2024

Write the numbers on the _____.

Hints:	thousands	hundreds	tens	units
--------	-----------	----------	------	-------

③

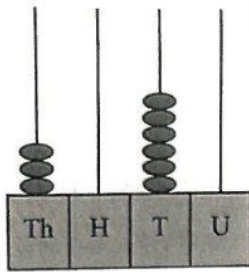

(a) The abacus shows the number 8275.

The number is read as eight thousand three hundred and seventy-five.

(b) In this number,

3 is in the hundreds place. It stands for 300.

(4)

- (a) The abacus shows the number 3060.
The number is read as three thousand and sixty.
- (b) In this number, 3 is in the Thousand place.
It stands for 3000.

(5) In the number 2490,

- (a) The 2000 digit is '2'.
The hundreds digit is 4.

- (b) The **sum** of the tens digit and the hundreds digit is 490.

(6) Follow the instructions below. Write a 4-digit number on the _____.

The units digit is '5'.
The thousands digit is '3'.
The hundreds digit stands for 100.
The tens digit stands for 40.

Answer: 3145

(7)

Use the number cards above to form three different 4-digit even numbers.
Arrange the numbers from the largest to the smallest.

Answer: 7520, 5270, 2570
(Largest) (Smallest)
